ABOUT US

PARPIGNOL is a quality games store opened in Florence in 2015. In our professional background we had almost thirty years of experience in games and entertainment and since 1996 we have given life to the project LUDOBUS – IL GIOCO OVUNQUE (GAMES EVERYWHERE)

The Ludobus moves throughout Italy and abroad, on the occasion of parties, events, entertainment, special occasions, fairs, festivals, ceremonies, corporate parties and any other moment that requires varied and engaging entertainment.

WHAT IS THE LUDOBUS

The Ludobus is a van equipped to play in a thousand different ways.

It is a real **traveling toy library**, managed and organized by **two professional entertainers**, according to the proposed activities.

FROM 3 TO ...103 YEARS !

The Ludobus is aimed at children, girls, boys, young people, adults, families, seniors: in short, **everyone and all those who want to play and have fun in an intelligent, engaging way and with games mostly made of wood and self-built.**

OUR METHOD

When the Ludobus arrives in a place it does not require a highly structured activity and it does not create a spectacular event, e.g. with actors (entertainers) and spectators (girls and boys).

The Ludobus literally places all the games and equipment for fun in the square.

The entertainers are able to show them and act so that everyone, young and old, can have fun and find "their" game.

The spaces and activities are carefully organized according to age, but all those who participate are left free to choose the game or activity they prefer independently.
